SANDS'S SARSAPARILLA.—The success which has attended the application of this remedy for all diseases arising from an impure state of the blood, since its first introduction to the public by Messis. Sands & Co., druggists, New York, according to the testimony of many highly respectable individuals, is truly wonderful, and is a strong proof of its excellence. Messis. Smith & Fowle, the agents for this city, are daily receiving letters from individuals who have used it with success: many of them having been afflicted with diseases which seemed to be incurable, but by the use of this article, have entirely recovered, and are anxious to add their names and testimony in its favor. Many of these letters are on file and will be shown to all who wish to see them, by calling at the store of the agents, 123 Washington st.

For conclusive evidence of its superior value and efficacy, see certificates published in this and other city papers.

Brant's Indian Pulmonary Balsam.—The child of a merchant in Join street, New York, was afflicted with a very obstinate eruption, which was a great annoyance to it night and day. Much medical advice was had, and the most celebrated alterative spoken of in these times, was administered to him for a considerable time, to no effect. "Brants Indian Purifying Extract" was then procured and given, and less than one battle perfectly cured the child. So that his father has enough of the "Extract" left, to cure the child of his neighbor, if he be so afflicted. We have no authority to use the name of the gentleman in print, yet if any doubt the statement, the reference can be had at 72 Hicks street, Brookl

The most certain and effectual way of curing diarrhea and bowel complaints is to try Dr. L. D. Fleming's Medicated Diarrhea Candy; it is soothing and salutary, it has never failed to cure, to our knowledge, and it is perfectly releasant; it is also purely vegetable and possesses no deleterious properties. One of the best proofs in favor of this medicine is the demands which are constantly being made for it. The public will all be satisfied very soon that it is not only the most convenient, but the most salutary medicine they can use for such diseases. His Worm Candy for the total extermination of Worms, is also a vegetable substance, pleasant for children to take, and free from any thing that will sicken; it is safe and salutary. No family should be without it. For sale at the office of Dr. Covert, 135 Nassauest.

NEW ALGEBRA.—Just published, An Abridgement of Day's Algebra, adapted to the improved methods of instruction in Schools and Academies, by J. B. Thomson, A. M. The object of this work is to furnish an easy and lucid transition from the study of Arithmetic to the higher branches of Algebra and Mathematics. The merits of Day's Algebra are too well known and appreciated to require comment. This inimitable work is now presented to the public in an abridged form, with such additions as would adapt it to the wants and capacities of beginners by an experienced and practical teacher. To this end many new illustrations are added; practical questions are placed at the foot of the page; the number of problems are greatly increased, &c. &c. Speaking of the work and its author, President Day says, "I had confidence in his mathematical talents and attainments and his practical knowledge, derived from several years' experience in teaching Algebra, as qualifying him to make the abridgement proposed; and I am gratified to find on examination that our design has been skillfully and satisfactorily executed.
